

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
<h1>K-2 Math Challenge</h1>			1 Between 30 is Between 29 and 31	2 Centimeter show measurement	3 Count on Start with a number and count on by a specific number "Count on from?"	4 Count Back Start with a number and count back by a specific number "Count back from?"
			5 Intersect Lines that cross	6 More than 25 is more than 10	7 Addition combining 2 things to make more	8 Equal 25 is equal to 25
12 Temperature The temperature is 30°F.	13 Pattern repeating	14 "A week is 7 days"	15 Pyramid	16 A.M. The time between midnight and noon.	17 Less Than 18 rocks are less than 20 rocks.	18 Dollar 100 pennies
19 P.M. The time between noon and midnight	20 Dime 1dime= 10 pennies	21 Sum Add two numbers together and you get a sum.	22 Sphere (like a ball)	23 Inch Show measurement	24 FREE DAY Make up your own word (stump your parents)	25 Cylinder <i>Focus: identifying the shape</i>
26 Nickel 1 nickel=5 pennies	27 Quarter 1 quarter = 25 pennies	28 Subtract To take away objects from a group or to compare groups.	29 Symmetry Same on both sides.	30 One Hundred <i>Focus on: How much is it really?</i>	31 Difference "the difference is.."	

"A VOCABULARY WORD A DAY KEEPS THE MATH BLUES AWAY"

Your Challenge: Use the word of the day 5 times in conversation.

I know you can do it!

Mom and Dad: be sure your child uses the "exact vocabulary word" in the correct context.

*Keep in mind that no matter what stage your child, this Challenge will develop skills on some level. Some kids will get the exposure, some will get to practice (reinforce), some will master, and other will adopt the vocabulary word into their normal vocabulary. The wonderful thing is that all learners will benefit!
